

SQL Server Daily Health Check Report

Server: MSSQLSERVER01

Date: 2025-09-02

Instance Overview

- SQL Server Version: **2019 (15.0.4261.1)**
- Uptime (days): **12**
- Total Databases: **14**
- Current Connections: **289**

Resource Usage

- CPU Utilisation (%): **42**
- Memory Used (GB): **28 / 32**
- Page Life Expectancy (sec): **7200**
- Batch Requests/sec: **1450**
- Deadlocks (24h): **2**

Storage Summary

Database	Size (GB)	Log Used (%)	Data File Free Space (%)
master	0.6	12	80
msdb	1.2	22	75
tempdb	10.5	65	20
SalesDB	180.3	72	15
FinanceDB	240.8	85	10
HRDB	95.6	40	30

Backup Status

- Last Full Backup (all DBs): **Success (24h)**
 - Last Log Backup (critical DBs): **Success (15m)**
 - Databases without backup in last 24h: **0**
-

Error & Warning Logs (Last 24h)

- Severity 16 errors: **4**
 - Severity 20 errors: **0**
 - Login failures: **12**
 - Long-running queries > 5 min: **7**
 - Blocking sessions > 1 min: **3**
-

Jobs & Maintenance

- SQL Agent Jobs Scheduled: **32**
 - Failed Jobs (Last 24h): **1** (IndexRebuild_FinanceDB)
 - Index Fragmentation > 30%: **12 indexes**
 - Integrity Checks (DBCC CHECKDB): **All Passed**
-

Alerts

- FinanceDB Log File usage at **85%**
 - SalesDB Free Space only **15%**
 - Backups & Integrity Checks are healthy
-

Status: ATTENTION REQUIRED

Warnings detected (Log space, Storage).
